Who We Are

ARF Interior is an experienced bespoke furniture maker with more than 40 years of expertise. We take pleasure in creating a delightful space with luxurious built-in furniture, made of the finest wood veneer and delicate duco paint coloring. It is essential for us to work together closely with notable designers and inspiring home-owners in turning their dream wardrobe, pantry, or even cabinets into reality.

Vision

To be a leading partner for interior designers and architects in Indonesia in terms of making exceptional quality furniture.

Mission

To create living furniture that emblems natural characteristic and excellent finishing supported with the right hardware fittings.

Background

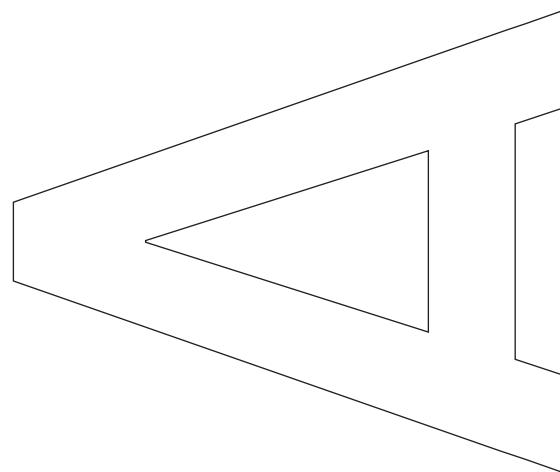

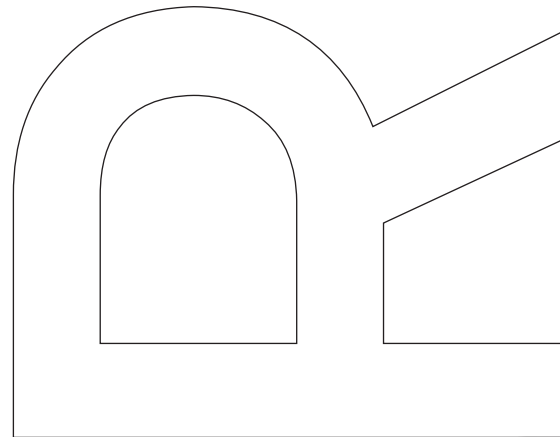

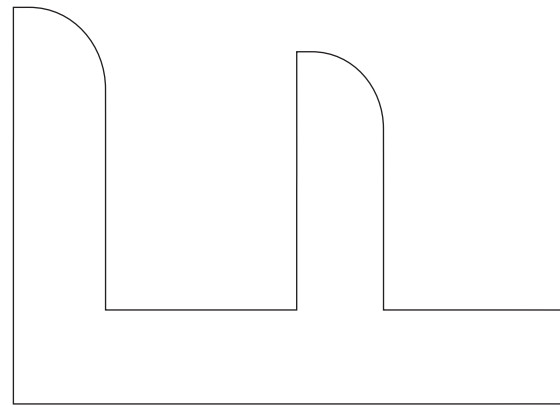

Mr. Chan Soen Joeng (Aweng)

Founder

1978

Mr. Chan Soen Joeng (Aweng), our founding father, has been constantly building furniture since 1978. Started from a small shop on Fatmawati street, now ARF interior has worked with well-known Indonesian architects and interior designers to build countless luxurious furniture.

Our Value

With years of experience in luxurious furnishing, we are a reputable partner to our client and notable designers across the nation. We offer thorough services that begins with studying our client's particular needs before moving on to the design process. After finding suitable materials that fit the client's taste, we construct the furniture and then set it up at your place.

Personalized Service

Our range of services are planned to ensure complete customer satisfaction. This includes site-visit, bespoke design, and wide ranging material & finishing options. Our furniture have customizable features to fit the unique needs of each customer such as hidden closet, scarf hanger, special storage for accessories, and the like.

After Sales Service

All of our furniture is covered by a one year guarantee. This means that if you experience any inconvenient problem with our furniture within the given time, we will provide free repair for any broken hardware and/or LED lights.

Excellent Material

To ensure that quality materials are used, our Founder carefully handpicks both the wood material and its veneer himself. We do our best to source only A Grade local and imported woods.

Experienced

Throughout the years, we have been dealing with different needs of customers. We are continuously learning to improve our knowledge and skills in luxurious furniture making.

Swift Installation

We put your convenience at the top of our mind, which is why our furniture is subsequently knocked down into parts after passing the quality control at our workshop. This enables us to assemble it faster on-site without making too much mess simultaneously.

Designer Friendly

Cooperating with designers and home owners in the most efficient and effective way. We assist them with technical aspects on both furniture systems and wood finishing options to create functional and aesthetically pleasing design.

Design & Quality

We work with highly varied design and materials including the popular wood profile of classic style, smooth yet textured wood finishing, and matte & delicate glossy paint finishing. Being able to work with excellence on such scope, we are determined to realize each design seamlessly into tangible brilliance.

- **Handpicked material**

We bring the best quality of material available both local and imported.

- **High-end hardware**

Grass, Blum, Salice, Hafele, Hettich, we have all the best names covered.

- **Advanced system**

We combine technology with our design by using door sensor switch system for wardrobe and cabinet lighting.

- **Integrating furniture**

Considering the harmony of the whole space, we try to create furniture that fit seamlessly into its surrounding.

Our Projects

We are extremely pleased to deliver the quality we promise through numerous fascinating projects. Whether it is for high-end residential, hotel, hospital, or office, we build furniture that able to complement the personal needs as well as the overall space.

Lamandau House

The interior of Mr. Anwar Nasution's house showcases a harmonious combination between sleek wood pieces and functionality. As much as he puts attention to aesthetic of the space, he also needs it to be fully practical.

Permata Hijau Residence

A large living room can be quite tricky to design as the owner is often tempted to simply fill it up with large size furniture. This is where the designer's role becomes paramount. To be able to show the owner's collectible items yet still make the room feels light, Integrha Pratama Artistry designed an open cabinet with illuminated shelves to have a contrast mood with the dark rottan grey color.
